EDUCATION

Bachelor of Technology in Computer Science Engineering

2024 – 2028 (Expected)

Symbiosis Institute of Technology, Pune

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, C

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST API, Authentication, Responsive UI

AI/ML: Multimodal AI Applications, Speech Analysis Systems, AI Model Integration, LLM APIs

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Problem Solving

Tools: Git, GitHub, VS Code, Postman, Google Colab, TensorFlow

PROJECTS

MedPilot – AI-Powered Medical Assistant Platform

In Progress

React, Node.js, Express.js, MongoDB, AI APIs

- Building a full-stack MERN web application to assist doctors by summarizing medical reports and consolidating patient health history
- Integrating LLM-powered AI APIs to extract key insights from complex clinical documents and past health records
- Designing an intuitive dashboard for real-time report analysis, reducing manual review time for medical professionals
- Implementing secure authentication and patient data management with role-based access control

VocalSync – AI Speech Feedback Platform

2024

Python, AI Models, Web Integration

- Developed multimodal AI web application that analyzes user-recorded videos and provides detailed speech performance feedback
- Integrated AI models for audio and video processing to evaluate speech clarity, pace, and delivery metrics
- Published peer-reviewed research paper on the system's methodology and results in IEEE
- Designed intuitive UI for video recording, upload, and comprehensive analysis report generation

SymbiEat – Smart Campus Food Ordering System

2024

React, Node.js, Express.js, MongoDB

- Designed and developed full-stack MERN application enabling students to order food from classrooms and pick up instantly upon arrival, eliminating canteen queues
- Implemented secure authentication system and real-time order workflow with MongoDB database integration
- Built responsive user interface with React, ensuring seamless experience across mobile and desktop devices

HACKATHONS & COMPETITIONS

National AI/ML Hackathon – IIT Hyderabad (AVEVA)

2024–2025

- Reached 2nd round prototype stage out of national-level competition pool as part of a 3-4 member team
- Developed an AI/ML prototype solution evaluated by industry experts from AVEVA

OffGrid 1.0 Hackathon – DY Patil International University

2024–2025

- Reached the final round as part of a 3-4 member team, competing against participants from across the country
- Built a full-stack AI/ML integrated web application under hackathon constraints, demonstrating end-to-end product development skills

EXPERIENCE

Programming Community Member – CodeX SIT

Jan 2025 – Present

Symbiosis Institute of Technology

- Actively participate in coding activities, technical discussions, and collaborative programming projects
- Engage in skill development initiatives focused on data structures, algorithms, and software development best practices
- Collaborate with peers on problem-solving challenges and technical workshops

CERTIFICATIONS & COURSES

- Infosys Full Stack Web Development Certification – Infosys Springboard
- Infosys Figma (UI/UX Design) Certification – Infosys Springboard
- Python for AI/ML – Infosys Springboard
- Operating Systems – Coursera (Certificate of Completion)
- Advanced OSINT Course
- AI and Cyber Security Seminar

LEADERSHIP & ACTIVITIES

ACM Student Chapter – Management Team Member

- Support organization of technical events and student activities, contributing to community engagement and learning initiatives
